## TERRIBLE HAVOC WROUGHT BY BLIZZARDS ON LAKES-- THREE SCORE OR MORE DEAD

Millions in Property Loss—City of Cleveland Stricken—  
Wreckage and Bodies Come Ashore at Many Ports—  
Rescued Mariners Tell of Terrible Hardships— Storm  
the Worst Experienced in Many Years

News of Catastrophe of Three Days of Death Wreaking  
Weather Only Commenced Coming in Yesterday—  
Life Savers Still Unable to go to Some Wrecks—Indi-  
cations of Better Weather Give Hope for Today

CHICAGO, Nov. 11.—The shores of Lake Superior, Huron and Erie are strewn tonight with the wreckage of the three days' sale and snow storm, which has cost the lives of probably three score people.

Turned bottom up in midlake, is a 200 foot steel vessel with her crew, while there are wrecked or grounded numerous other crafts.

The property loss is as yet unestimated, but will run into millions.

Full details of the storm which swept from the western-most end of Lake Superior to the Eastern shore of Lake Erie became known only today, when survivors began arriving from ports with tales of hardships and rescues seldom equaled on the Great Lakes. The death toll with many unreported, follows:

TWENTY OR THIRTY MEN, probably drowned on an overturned freighter in Lake Huron.

FIVE BODIES washed ashore at St. Joseph on the Canadian side of Lake Huron, four wearing belts marked "Mexford," one belt marked "London."

THREE BODIES washed ashore on the west shore of Lake Huron.

TWO BODIES washed ashore opposite an overturned boat.

SIX MEMBERS of the Life Saving crew of Buffalo, bodies washed ashore at Kettle Point, Lake Huron.

SEVEN OTHER BODIES rolling on the deck of a ship wrecked there.

CLEVELAND, O., Nov. 11.—With fair and warmer weather predicted for tomorrow, Cleveland is hopeful to-night of speedy cessation of the difficulties which have beset it since the worst snow storm in its history descended upon it on Saturday night.

Resumption of the blizzard would cut off relief from the food scarcity which the city now faces. Rain would seriously complicate conditions, as floods would ensue.

As a result of the disturbed condition of the lake, a new menace has developed. Drinking water has turned the color of coffee and warning has been issued by the board of health to tell all drinking water.

The total number of dead was increased to five when John Richmond was crushed to death by the collapse of the roof of his house under the weight of snow and William Combert found frozen in a snow drift.

It is believed the steamer G. J. Grammer, which went aground off Lorain, will be saved. A breeches buoy is in place ready to take off the crew of 22 in case danger threatens.

The hospitals are greatly handicapped. Some lack proper food, others are forced to use candle light. All are short of proper requirements for their work.

### BODIES COME ASHORE

PORT HURON, Nov. 11.—According to messages tonight in a round about way, from Canadian shore of Lake Huron, seven bodies have washed ashore at Kettle Point from a ship grounded far out on the point and being pounded to pieces.

Seven other bodies, it is declared could be seen rolling about the decks of the stranded vessel. No help can be sent the vessel, as the nearest life saving station is located here and the seas are too heavy to permit sending a small boat so great a distance.

According to the Port Huron Times Herald, the capsized steamer which has been hidden by the waters of Lake Huron since was discovered late Monday afternoon, is the Regina, of Toronto.

It was definitely established late tonight that no lives were lost in the wreck of the steamer Northern Queen at Kettle Point nineteen of the 22 members of the ship's crew are safely ashore. The captain and two mates

### SHORES TELL WRECK STORIES

BUFFALO, Nov. 11.—Fragments of wreckage tossed along many miles of the lake front confirmed today the fear that the storm which lashed Lake Erie on Sunday and Monday had claimed its toll of death.

Six men perished when lightship No. 82 was torn from her anchorage, 15 miles up the lake and either foundered or was shattered on the breakwater in the blinding snow storm of Monday.

At Loraine, Ohio, the 18 foot freighter G. J. Grammer is hard ashore. Life savers are unable to take off the crew because of heavy sea.

A door broken panels and other wreckage identified as part of the lightship have floated ashore. This afternoon one of her life boats was picked up containing three life preservers and a broken ore fast in an anchor.

### Hired Gun Men Confess

Labor Leader Consequently Found Guilty of Attempted Murder

JERSEY CITY, Nov. 11.—Peter H. Murphy, labor leader, was found guilty tonight by a jury in the court of common pleas, on a charge of assault with intent to kill Thomas F. Conroy, who was struck by a bullet intended, it is alleged, for John W. Burke.

Murphy, Conroy and Burke are members of the hosting engineers' union. Burke had preferred charges against Murphy, his fellow member. It is alleged Murphy hired three men to "do up" Burke. During a fight in a Hoboken saloon shots from the guns of these three struck Conroy. Two of the hired fighters turned State's evidence.

## OLD DISPUTES WORRY FEDERATION OF LABOR

Dynamiters Cases to Be Put Out of Sight as Far as Possible—No Discussion

SEATTLE, Nov. 11.—Most of the delegates to the American Federation of Labor convention spent the afternoon on an automobile ride through Seattle's beauty spots. The various various committees are struggling to-night to prepare reports on the positions of the executive council report referred to them and on resolutions offered there.

Three subjects that were troublesome at the Rochester convention last year are still matters of contention, these being the charges, filed by the Central federation on union of New York against the "White Hat" actors union of America, the quarrel between the two factions of the International Electrical workers of America and the legislation demanded by the postal clerks.

The McNulty branch of the electrical workers is recognized by the Federation and courts, but the Reid Murphy branch is powerful in the west. It has 5000 members on the Pacific coast. This faction is now holding a secret convention in Seattle.

Iron workers dynamite conspiracy trial is not expected to occupy much of the convention's time.

It is expected some resolution will be adopted regarding the trials, but no discussion on the floor is looked for.

MRS. MITCHEL, MARRIED FOUR YEARS,  
EXPECTS HER HONEYMOON TRIP NOW

Mrs. John Purroy Mitchell.

So busy has been John Purroy Mitchell, candidate for mayor of New York, since his marriage four years ago, he has had no time to think of the long deferred honeymoon.

"Just as soon as election is over with," Mrs. Mitchell said, "I am going to insist that he take me on my honeymoon trip."

### CHINESE WHITE SLAVER

Prominent Seattle Chinese in the Hands of the Law

SEATTLE, Nov. 11.—Harry Toy, a wealthy Americanized Chinese, was arrested by government agents today on charge of violating of the Mann act in making a "white slave" of Goldie Goddell, 18 year old daughter of Rev. T. C. Goddell, of Portland.

He was arraigned before U. S. Commissioner W. D. Totten today, and remanded to jail in default of \$5,000 bail. Toy, who has been prominent in Chinese-American activities in Seattle for many years, created a sensation three years ago by marrying Christie Goddell, a mission worker in Portland, where Toy attended school.

Soon after the marriage Toy's wife died. Her sister Goldie, grieving over Mrs. Toy's death, entered a convent. Government agents allege that after a month's pleading, Toy induced Goldie Goddell to leave the convent, and come to Seattle to live with him. After living together a time, it is alleged Toy placed the girl in an immoral resort.

### TAMMANY TO PROTEST

Said That Record Of Malone Has Been Investigated

NEW YORK, Nov. 11.—The rank and file of Tammany heard today that Charles F. Murphy, their leader, was about to protest to the president against the appointment of Dudley Field Malone as collector of the port of New York to succeed John Purroy Mitchell, mayor-elect.

According to reports, detectives have investigated Malone's record as assistant corporation counsel of New York, with view to learning whether he was absent from his post for many weeks during the presidential campaign and if he had drawn pay for the time he was absent.

### DYNAMITE BEING USED

Centennial Mine Boarding House Blown Up at Lakes

CALUMET, Nov. 11.—What is believed to have been an attempt to exterminate ten mine guards employed by the Centennial Mining Co., occurred at Centennial Heights, today when a large boarding house was dynamited. Though the place was wrecked, no one was hurt.

### HARDY FOR COLLECTOR

To Be Recommended Today—Phoenix Gets More Mail Carriers

WASHINGTON, Nov. 11.—(Special.)—The postoffice department has allowed Phoenix three additional letter carriers. L. Henderson, recommended for collector of customs at Nogales, failed of appointment because he was an importer. The president will send the name of C. E. Fary, of Tucson, to the senate today for the office.

### GAME FOR GIANTS

OXNARD, Cal., Nov. 11.—New York defeated Chicago White Sox today: Giants 3-13-4 White Sox 3-12-6; Mathewson and Meyers; Benz, Russell and Daley.

## SOLUTION IS POSSIBLE IN MONEY PINCH

Powers Being Consulted to That End—Meantime Wilson Cabinet Stands Firmly With the President

Lifting Arms Embargo Yet in Doubt—Cuba Denies Offer of Battleships to Carranza—Hale Still Busy

WASHINGTON, Nov. 11.—President Wilson's cabinet stands firmly behind him in his efforts to force the retirement of Huerta as a necessary step to pacifying Mexico.

For more than two hours the cabinet discussed today every phase of the Mexican situation. The consensus of opinion is that the United States should not take a single backward step in its program to restore constitutional government in Mexico.

It became known today that all the secretaries favored steps which would convince Huerta that the United States is earnest in its demands.

Some of the cabinet members recognize in the lifting of the embargo on arms a practical and perhaps early solution of the difficulty, but there is no final decision on the point. There is hope on the part of the president and Secretary Bryan that a measure so radical may not be required. Influences are at work, which in the opinion of many officials, may force collapse of the Huerta regime.

There is a closer understanding and more frequent communications between the state department here and foreign governments generally than has been in evidence at any time since the Mexican situation became so widely international.

What the United States is seeking is acquiescence in its policy by the powers and such approval as will carry with it a discouragement of financial aid to the Huerta regime through foreign channels. A few weeks and financial solution, it is believed, will force the retirement of Huerta. Senor De la Vega, Cuban charge d'affaires here has issued a statement denying for the government the recent report from Nogales, Sonora, that two Cuban warships had been offered to the rebels.

### HALE HURRIES AWAY

Believed to Have Interesting Government News For Carranza

TUCSON, Nov. 11.—Wm. Bayard Hale, supposedly a representative of the government, hurriedly departed in an automobile today after receipt of a telegram from Washington. His destination is believed to be Nogales, Sonora, where Gen. Carranza is making his temporary headquarters.

### HALE IN NOGALES

Carranza Much Interested—Nothing Given Out

NOGALES, Ariz., Nov. 11.—With Hale's arrival here early tonight, Hale, supposed representative of President Wilson, indications are that informal negotiations had begun for a conference between him and Carranza. Hale is non-committal as to his reasons for coming here. He was visited at his hotel by Frederick Simpich, American consul and by Ygnacio Bonillas, sub secretary of the department of fomento in Carranza's provisional cabinet.

Hale and Simpich held an extended conference. Bonillas, in Carranza's name, invited Hale to visit his home while on the border, but Hale declined. Carranza is making Nogales his provisional capital, admittedly anticipating some move on the part of Washington which will greatly affect the rebel movement.

Hale crossed the line into Mexico at 9 o'clock tonight and immediately went into conference with General Carranza. It is indicated tonight's meeting is merely preliminary to a formal conference, to be begun tomorrow.

### BATTLESHIPS ARRIVE

WASHINGTON, Nov. 11.—The gunboat Wheeling arrived at Tuxpa to

THEY'RE EXPERTS ON  
TRUSTS FOR WILSON

George Carroll Todd and Joseph E. Davies.

Joseph E. Davies, chief of the bureau of corporations, is to conduct a scientific investigation into the matter of trust regulation. George Carroll Todd is the official "trust buster" of the administration. When the Wilson course in regard to trust regulation is decided, Todd will have the legal work in charge.

day to investigate the disorders reported in the northern part of the state of Vera Cruz. The battleship Louisiana is also due there today.

### AMERICANS ARE SAFE

VERA CRUZ, Nov. 11.—Americans numbering twenty-six persons in the town of Tuxpam, which is being attacked by a large force of rebels, were safe this afternoon. The battleship Louisiana and the gunboat Wheeling are riding at anchor in Tuxpam harbor.

### CLAIM TORREON RETAKEN

EL PASO, Nov. 11.—Federals in Juarez claim that Torreón has been recaptured from the rebels by government troops under command of General Velasco.

## READY FOR ATTACK OF NAVAJOS AT AGENCY

Reported That Troops Have Been Ordered Forward From This State to Aid

FARMINGTON, N. M., Nov. 11.—United States officials at the Shiprock Indian agency are prepared for the promised attack of Navajo Indians, according to advices.

It is said the attack threatened yesterday was delayed by the sudden illness of the Indian leader.

United States Marshal Hudspeeth is credited with the statement that federal troops have been ordered to the reservation from Arizona, but pending their arrival he and Indian agent Skelton have taken steps to protect the government school against assault. The recalcitrant Indians are reported in the surrounding mountains.

### S. P. STRIKE THREATENED

Eight Thousand Operatives Between El Paso and New Orleans Involved

SAN BERNARDINO, Cal., Nov. 11.—A crisis is at hand in the threatened strike of the 8000 engineers, firemen, conductors and trainmen of the Southern Pacific operating between El Paso and New Orleans, according to a statement made here by Hugh Dickson, general counsel of the Brotherhood of Locomotive Firemen and Enginemen.

Dickson received a message asking him to hurry to the scene of negotiations, as a strike would probably be ordered. Wages are one cause of the dispute.

## CAMERON FOR GOVERNOR IS THE SLOGAN

Cards Issued by Old Line Republicans Announce the Issue as Settled—Means a Straightout Fight to Finish

Progressives Have Campaign Fund, with Dwight Heard Declared Their Choice for United States Senate

The circulation throughout the district yesterday and on Monday of a plain, card, business size, bearing in bold type "Ralph H. Cameron, Governor of Arizona" has created no small stir in local political circles.

The appearance of the card came immediately following a meeting in this city on Sunday afternoon of a number of old line Republicans of the county. County Treasurer C. W. Hicks and A. H. Gardner, of Tombstone, apparently brought the meeting about. At least it followed close upon the heels of the arrival of these gentlemen from Tombstone.

The exact facts concerning such things may be obtained only through actual participation, or from one who was a participant. In the present case those who participated are saying nothing. The card in circulation, however, speaks louder than words as to the fact that the meeting held here was not a chance one, the only inference possible from the printed matter being that the meeting was well planned in advance and that it reached definite conclusions.

Apparently it was arranged upon indication from Mr. Hicks and Mr. Gardner that the time was ripe for action, for it was about these two that the assemblage of Sunday afternoon gathered. Not a great many were present, but those who were on hand represented the fighting, up and doing, old time Republican precinct organizations of the district. It was significant, too, of the strength of these old organizations that within a very short time after the arrival of the gentlemen from Tombstone, the conference was in full swing. Also it was significant of the preparedness of the leaders for business that they were in session on a comparatively short time.

Ralph Cameron was the last congressional delegate from the territory of Arizona. He served but one term. Subsequently he entered the contest for the seat of United States Senator from the newly made state. In this campaign he stood out and out as a Taft supporter. The unpopularity of the president at that time among Arizona people, by reason of his statehood attitude, was such that Mr. Cameron was heavily handicapped and his defeat almost a foregone conclusion. However, he identified himself as the strongest old line Republican leader in the state and in any resumption of activities of this division of the party would naturally be presumed to be entitled to first consideration. It can also be added that his sacrifice won him the undying loyalty of many of the old line men.

Aside from Mr. Cameron, the meeting on Sunday is of interest by reason of its following close on the heels of a meeting of the Republican state committee at Phoenix on Wednesday of last week. This meeting invited the attendance of Progressives and suggested a get-together conference. The Progressives declined to enter the meeting or have anything to do with it whatever. Instructions to this effect were sent out over the state as soon as the plan for the Republican committee gathering became known. The word was accompanied by quiet announcement that the Progressives had assembled a considerable fund and would be prepared for a fight to a finish in the next campaign, with slivers of war sufficient to counterbalance and fund the Republicans might raise.

At Phoenix last week there was also a considerable number of Progressives and it is understood on good authority that they lined up to maintain their organization and also for Dwight B. Heard for United States senator. Mr. Heard, who owns the Phoenix Republican and is a man of
